My Father's house has many rooms; if that were not so, would I have told you that I am going there to prepare a place for you? And if I go and prepare a place for you, I will come back and take you to be with me that you also may be where I am. You know the way to the place where I am going." “ My grandmother was a sweet and goofy lady that liked to make jokes and be a smartypants and we all loved her tremendously for it. She was an all around good person that cared more for everyone else than herself. I enjoyed my childhood with her and my grandfather and loved listening to records and singing along with them. I'll always have great memories of the air shows we went to, the places we traveled to, the games of dominos and skipbo we played, and all of the movies we watched together. I wish we had more time together, but I'll always cherish the memories I have of them both. I couldn't have asked for a better grandmother.
